

# SAGE BEANS EXPORT

## Company Profile – 2025

### 1. Introduction

Sage Beans Export is a Kenyan agribusiness company focused on the production, processing, and export of high-quality yellow beans. Established to meet rising global demand, the company combines modern farming techniques, sustainable practices, and large-scale production to deliver export-grade pulses to international markets.

### 2. Our Mission

To produce premium-quality yellow beans through sustainable and innovative agricultural practices while contributing to Kenya's position as a global leader in bean exportation.

### 3. Our Vision

To become one of East Africa's most trusted and reliable suppliers of export-grade yellow beans, known for quality, consistency, and integrity.

### 4. Our Values

- Integrity: We conduct business with transparency and professionalism.
- Quality: Our beans meet strict international export standards.
- Sustainability: We practice responsible and environmentally friendly agriculture.
- Innovation: We apply modern technologies for increased yield and efficiency.
- Growth: We promote long-term agricultural and economic development.

### 5. Company Overview

Sage Beans Export manages a 1000-acre farm in Kajiado County, Kenya. The farm is developed in phases of 100 acres each to ensure sustainable expansion. Our beans are grown under full irrigation, ensuring consistent production throughout the year.

We specialize in:

- Large-scale yellow bean farming
- Sorting, grading, and packaging
- Export supply to international markets

### 6. The Kajiado Yellow Beans Project

This flagship initiative aims to establish one of Kenya's most efficient and productive bean farming operations. With irrigated land, fertile soils, and professional management, the project is designed to consistently produce export-grade beans that meet global demand.

## 7. Production Capacity

Through mechanized farming and modern irrigation systems, we achieve:

- High-yield production
- Reliable, year-round output
- Consistent quality control from planting to export

## 8. Export Market

Our primary export destinations include:

- China
- Middle East
- Regional African markets

## 9. Quality Assurance

We implement strict quality control procedures including:

- Field inspection
- Proper drying and storage
- Sorting and grading
- Moisture and contaminant testing
- Packaging for international shipment

## 10. Partnership Opportunities

Sage Beans Export welcomes strategic partners to collaborate in the development of our farming phases. Partnership options include:

- Model A: Ksh 300,000
- Model B: Ksh 600,000

Partners earn consistent monthly returns supported by our structured agricultural model.

## 11. Corporate Information

Company Name: Sage Beans Export

Location: Kajiado County, Kenya

Postal Address: P.O Box 59101–00200, Nairobi
